WORK EXPERIENCE

Xtreme Offshore Outsourcing Inc. **February, 2026 - May, 2026**
(Japanese BPO, RTO, and KPO Services Company) *Makati, Philippines*
On-the-job Training

- Assigned to mobile development of a mobile application and medical device.
- As an intern, I mainly do programming, documentation and investigations on bugs and requested features or changes from our Japanese clients.
- I also do quality assurance work and testing, this includes creating test cases, performing tests, and reporting issues found in the application.

Christian Grace School of Cavite **June, 2022 - January, 2023**
I.T. Support Intern *Cavite, Philippines*

- As I.T. Support, I mainly fix and build computers to be used by teachers during hybrid and online classes. I also keep inventory of equipment and items via Google Sheets which is only shared with my employer.
- Participate in school events to handle equipment such as cameras, audio/video, and devices used during events.
- Help fix and build multiple desktop computers that were out of order for months, and while doing so identified broken/unusable components to be recycled.
- Started tracking of inventory and status of equipment and items.

EDUCATION

Polytechnic University of the Philippines - Taguig Branch **October, 2022 - October, 2026**
Bachelor of Science in Information Technology *Taguig, Metro Manila, Philippines*

- Graduated with the academic honor of "Magna Cum Laude".
- Graduated as the number 1 ranked BSIT student of Batch 2026.
- Awarded President's List honors every semester from 2022–Present for maintaining a cumulative GPA of 1.21.
- A member of PUP Taguig - Computer Science for 4 years and counting with 2 years of leadership experience as Academics Apprentice and Academic Head of Computer Society.

Sector East Training Solutions Inc. TAIYO **May, 2022**
Basic One (A1- N5) Japanese Course *Metro Manila, Philippines*

- Completed Japanese basic competencies like workplace communication, team environment immersion, career professionalism, and occupational health and safety procedures.
- Completed Japanese core and common competencies, including workplace management, quality standards, and effective oral and written communication for professional and daily interactions.
